

Today, one of the greatest problems facing our schools is drug abuse. We all recognize the toll the drug abuse takes on our families, our communities, and ultimately our economy. Studies reveal that 70 percent of public school students aged 12 through 19 reported in 1989 that drugs are available at their school. Nearly 13 percent of 8th graders, 23 percent of 10th graders, and 30 percent of 12th graders had five or more drinks in a row in a 2-week period during the 1990-91 school year. And, 44 percent of all our teachers reported in 1992 that student misbehavior interfered substantially with their teaching.

There is no question that safety and order are necessary in our classrooms if we want learning to take place. Yet, the use of alcohol and other drugs is unacceptably high among our school-age children and the results of this use are increased violence, misbehavior, and little desire to engage in learning. Recognizing the toll drug abuse takes on our schools and communities, the Kennewick School District and community parents came together to develop the Parent Network which aims to curb student substance abuse and increase parent knowledge of their children's activities. To join the Network, parents must sign an agreement that their children will remain substance free for the school year and will set curfews for their children. Family and student activities are arranged by the Network which are guaranteed to be substance free. I also want to stress that while the purpose of the program is to include parents in this process, the Network ensures that students have a voice in all activities. Their involvement is critical to the success of such programs and I am pleased the school and community have sought their inclusion.

One of our national goals is to encourage parental involvement in education and I want to commend the Kennewick School District and their community not only for recognizing the importance of parental involvement but for implementing a program that works for our schools and our families. The American College Testing recently released a publication entitled: "On Target: Effective Parent Involvement Programs" which discusses the need for parental involvement and describes how the 21 selected programs are supporting this aim. I am very encouraged by the efforts being made by communities throughout our Nation and I hope other will follow the example set by these outstanding programs.

THE "ENOLA GAY"

Mr. THOMPSON. Mr. President, I have followed with increasing distress the events surrounding the Smithsonian Institution's exhibit on the Enola Gay and the end of World War II. With each passing day we are made privy to revelations of an offensive and unrecognizable telling of the great struggle to protect the United States and free

the world from the tyranny of Nazi Germany and Imperial Japan.

Many of our citizens who have proudly worn the uniform of our military and offered their lives in the service of our Nation, have expressed justified outrage that the Nation's repository of collective memory should be so callously dismissive of the salient issues involved.

Adolf Hitler and his Nazi regime were responsible for the unspeakable horror upon tens of millions of people in Europe. Indeed, today marks the 15th anniversary of the liberation of Auschwitz, a striking event which reminds us of the tyranny of fascism. Imperial Japan launched a calculated attack on our Nation in the predawn light of December 7, 1941, and precipitated a war which saw excruciating suffering visited upon the people of Korea, Manchuria, and the military forces of the United States. And now, the institution which for over a century has served as the premier repository of our cultural, intellectual, and technological history has decided to portray the noble, titanic struggle against evil as nothing more than a power struggle against moral equivalents.

I am appalled that our national history is being rewritten. I spoke against the original *Enola Gay* display at the Smithsonian which wrongly depicted our Nation's history during World War II. The second display resulted in more revisionism and more public concern and required congressional consternation to get it changed.

The Smithsonian Institution has a magnificent track record of telling the history of our country with accuracy, compassion, and style.

I call upon the Smithsonian Institution to work with veteran organizations to create an accurate, fair, and compelling display of which we all can be proud.
